SUMMARY

I am currently pursuing my B.E CSE Degree. I'm a optimistic and hardworking person.
I like to take challenges and make it as my experience. I always prefer to strive hard than giving up

EXPERIENCE

REACT DEVELOPER MODE : OFFLINE

Company : Synergech
Duration : 1 month
Project : Fashion Store AdminDashboard

JAVA DEVELOPER MODE : ONLINE

Company : ShadowFox
Duration : 1 month
Project : Fashion Store AdminDashboard

PROJECTS

HOME AUTOMATION

Hackathon

Duration : 2 days
Team size : 4
Role Played : Hardware , Designer
Skills Used : IoT, Arduino
The app allows individuals to turn on and off lights, and the sensor in the light detects human motion and turns off the light automatically. Additionally, we created a timer to notify users when to turn off a particular device, making it user-friendly and customizable

FOOD DONATION APP

Hackathon

Duration : 3 days
Team size : 4
Role Played : Frontend Developer
Skills Used : React, Java script
The app is designed to connect hotels with orphanages lacking proper food supplies. It features unique functionalities such as real-time GPS tracking of donations and a rewards system to incentivize regular contributions.
